

Green Line Extension Friends -

The Green Line Extension (GLX) team wanted to update you on ongoing project work. Contractors for the GLX Project are continuing the geotechnical investigation work to support the continued design of the project.

People who live and work in areas along the GLX corridor may see these geotechnical professionals and project support staff, who are authorized to work within and around the MBTA right-of-way. Work is typically conducted between 7AM and 4PM.

This work has been ongoing in areas along the GLX corridor since March and will continue throughout the year into 2014. The majority of the geotechnical work will occur within the MBTA right-of-way or on municipal property.

Should you have any questions please contact Joe Sgroi at the Green Line Extension at 617-996-0771 or email the project at info@glxinfo.com. As always, thank you for your interest in and support of the Green Line Extension project.
